

# PRATHAMESH BHOKARE

Software Developer

## About Me

I am a passionate engineer with a keen interest in acquiring knowledge across various domains.

Enthusiastic about exploring new opportunities, I am currently pursuing a degree in Information Technology. As a software developer, I am skilled in both frontend and backend technologies, particularly in React.js, Next.js, Node.js, and Express.js.

## Language

- English
- Germany (Intermediate)
- Hindi
- Marathi

## Expertise

Node Js, Express Js, React Js  
,Next Js, Javascript, HTML,  
CSS, Java(Basics), Machine  
learning, Numpy, Pandas,  
Python, C,c++, PTC-  
ThingWorx,Stock market  
analysis

## Certification

HTML,CSS,JavaScript,  
Machine learning, C,c++  
python,java,SQL

## Experience

### Bharat Forge PVT Ltd, Pune

#### IOT Developer (Intern)

2023(Dec)-2024(March)

I had work on the CDP Germany plant. Developpe the Condition Monitoring dashboards in Germany translate into English and along with backend.

### CodeClause PVT Ltd

#### Intern

2023(Nov)-2024(Jan)

I have efficiently worked on the News App project, utilizing a combination of frontend and backend technologies. The project involved:

- Backend: Node.js and Express.js to create robust APIs.
- Frontend: React.js for building an interactive user interface.
- Database: MongoDB for managing and storing data efficiently.

### Bharat Intern

#### Intern

2023(Aug)-2023(Oct)

Developed the various machine learning model  
Learn Machine Learning basics  
Testing and Validating process

### Prodgy

#### Intern

2023(May)-2023(July)

I have developed various websites, focusing on building responsive designs and ensuring optimal user experiences. My backend development skills include Node.js and Express.js, which I have used to successfully complete assigned tasks and projects.

## Education

2025 | Bachelor of Engineering

- Pune University
- Currently pursuing

2021 | Higher Secondary School

- Pune university
- perceived 86.60%

2021 | SSC

- Pune university
- perceived 85.20

## Hobbies

- Read stock Market books
- GYM
- Table Tennis
- Chess

## YBI foundation

Intern

2023(Oct)-2023-(Nov)

Done the project on Sentimental analysis on social media. Implemented with react.js, node.js and machine learning model. Analysing the sentiments of the comments, text, captions etc..

Internpe

Intern

2023(Jan)-2023-(March)

- learn python advance.
- Done the project on making small python game

CodeSoft

Intern

2023(April)-2023-(June)

- Developed the various machine learning model
- learn machine learning basics
- testing and validating process

## Projects

**Sentimental analysis on social news**

2023(Jan)-2023-(June)

- To analyse the sentiment of news on world market
- Gives directions how the news control over the market

**Student Portfolio**

2022(Dec)-2023-(Jan)

- Student can access their information easily and get their resumeready
- features like give view .pdf , resume format for studentinformation

**Internship Project - Condition Monitoring Dashboards**

2023(Jan)-2023-(March)

During my internship, I worked on a project involving the development of dashboards for condition monitoring of various devices and robots. My role primarily focused on backend development, utilizing skills in ThingWorx PTC and JavaScript to ensure effective data integration and functionality.
